

### **~~WINLOCK SCHOOL DISTRICT #232~~**

~~The Winlock School District has served approximately 732 elementary, middle and high school students in two facilities. The middle school and high school are co-located. Two portable classrooms are also in use at each location. The district owns and operates two support buildings, the administrative offices and the transportation building.~~

~~The District's current capacity, its educational programs, standard of service and enrollment forecast is used to determine its facility needs. According to the District's 2009 – 2015 Capital Facilities Plan, the current enrollment is 732 students (October 2008 headcount); current capacity is 781 students; and the projected enrollment for 2015 is 953 students. The District has adequate capacity for existing enrollment, but will require additional capacity for 172 students by 2015.~~

~~To attain the needed increased capacity for 172 students, the District intends to acquire property and construct an intermediate school for 240 students in 4th through 6th grades. Additionally, the District plans to improve and reconfigure the existing middle school for additional high school capacity and to evaluate its programs and grade configurations. Lastly, the District will look at making improvements to the high school athletic facilities.~~

~~In addition to forecasting enrollment for the year 2015, the District has used county population and housing data to make a long range forecast to the year 2025. Using a medium growth scenario, the estimated student population will be approximately 1,300 by 2025, or an increase of 600 students.~~

### **~~TOLEDO SCHOOL DISTRICT #237~~**

~~The Toledo School District has one elementary school, one middle school, and one high school. In 2009, the District served 952 students in grades K-12. The 2009 – 2015 Capital Facilities Plan forecasts that the district will serve 991 students by 2015 and approximately 1,200 students by 2025.~~

~~The middle school and the elementary school were remodeled in 1996. The high school was built in the 1970s, and two classrooms were added in 2008. Other district facilities include the district office, a bus barn, and three athletic facilities.~~

~~The Toledo School District has served many non-resident students. Approximately 16% of enrolled students reside in surrounding districts. There is a district policy in place with an enrollment cap on the number of these students.~~

~~The most significant issues facing the District in terms of facilities are:~~

- ~~• Modernizing the present high school and addressing the needs to support the Advance Placement program, math and science curriculum, and adding restrooms at the football facility.~~

- ~~Modernizing the middle school, adding capacity for growth and improving the woodshop.~~
- ~~Adding classrooms to the elementary school and high school for growth; and adding space for special education, pre-school, and an outside covered play area.~~
- ~~Adding safety and security improvements, including lighting and fire alarm systems.~~
- ~~Expansion and improvement of the office space in the district office~~

#### **EVALINE SCHOOL DISTRICT #36**

The Evaline School District consists of only one elementary school located three miles north of Winlock. In 2010, Evaline Elementary served an average of 38 fulltime equivalent students. The Evaline School District does not have a Capital Facilities Plan.

#### **CASTLE ROCK SCHOOL DISTRICT #401C**

The Vader Elementary School closed in 2007. Now the Vader area is served by the Castle Rock School District in Cowlitz County. Castle Rock is located 10 miles south of Vader. The Castle Rock School District serves more than 1,300 students in three schools: an elementary school, a middle school, and a high school.

#### ~~**NAPAVINE SCHOOL DISTRICT #14**~~

~~The Napavine School District has an elementary school, middle school, and high school that serve about 760 K-12 students. All of the schools are located in the City of Napavine.~~

#### ~~**CHEHALIS SCHOOL DISTRICT #302**~~

~~The Chehalis School District currently serves approximately 2,700 students at three elementary schools, one middle school, and one high school. The District has a capacity of 3,889 students, and the only capital project being considered is the possible replacement of the 80-year-old R.E. Bennett elementary school.~~

#### **OTHER SCHOOL DISTRICTS**

The following school districts have not provided information about their enrollments, existing capital facilities or future plans:

Adna #226, Boistfort #234, Morton #214, Pe Ell #301 and White Pass #303.

#### **SCHOOL IMPACT FEES**

Many school districts have identified the need to institute school impact fees to offset the cost of providing additional classrooms to accommodate projected growth. Districts are working with Lewis County to draft a school impact fee program.

### **LEWIS COUNTY WATER-SEWER DISTRICT NO. 1 - RANDLE**

Lewis County Water-Sewer District #1 provides water service in the Randle area. The water system plan was amended in June 2006.

### **LEWIS COUNTY WATER-SEWER DISTRICT NO. 2 – ONALASKA**

Lewis County Water District #2 provides water service in the Onalaska area. The district does not have a current water plan; however, its 1993 water plan shows an average daily production of 61,600 gpd with service provided to 210 equivalent residential units.

### **LEWIS COUNTY WATER-SEWER DISTRICT NO. 3 - PACKWOOD**

The Packwood area is served by Lewis County Water District #3 and the High Valley Park Water Supply System. Lewis County Water District #3 serves the Packwood townsite and currently has 330 active hook-up accounts. There is a long term plan to build a new 220,000 gallon water tower. The High Valley Park Water Supply System serves 891 water service hook-ups, of which approximately 231 are permanent residences. The water system is served by two wells.

### **LEWIS COUNTY WATER-SEWER DISTRICT NO. 5 – BIRCHFIELD**

The water district serves existing and future lots within the proposed Birchfield Fully Contained Community.

### **LEWIS COUNTY WATER-SEWER DISTRICT NO. 6 – LAKE MAYFIELD**

The Mayfield Village area is served by Lewis County Water and Sewer District #6. The system currently has 270 account hook-ups; 62 of which are permanent residences, 114 part-time residences, 85 unused, and 9 commercial.

### **BOISTFORT VALLEY WATER**

Boistfort Valley Water is a community, non-profit water distribution system, currently serving 788 residences, 6 dairies, 2 public school systems, and 15 assorted small businesses. The distribution system consists of approximately 50 miles of pipeline serving an area of 25 square miles. There are three sources of supply, two water treatment plants, 5 pressure zones with 7 pumping stations, and 7 reservoirs with a total storage capacity of 1.3 million gallons. At this time, BVW is not planning on extending or expanding service into any new areas. The existing population served is approximately 2,500 people. ~~No new connections are available at this time.~~

Due to extensive damage which occurred during the flood of December 2007, the water system is currently in a state of flux as ongoing repairs continue to be funded by FEMA and USDA Rural Development. After this work is completed and evaluated, a long term
